### CLASS PASSES/CLUB CARDS

We are now pleased to offer you the option of taking any class using a Class Pass or Club Card. The passes contain six class possibilities and can be used to pay for any class or club. You simply purchase the card and we punch out the required number of classes required for your class. The cards offer a significant reduction in price from paying for classes individually. When your card is totally punched, you simply purchase another one.

### PFAFF 5D™ SUITE

Our 5D upgrade party was a success. The process was easy and everyone who attended was ready to register their Suite when they got home. For any of you who chose to receive a free year with your upgrade or Suite purchase, let us know if your free year needs to be activated. We can do this for you over the phone. Also, if you did not attend an upgrade party and need help, call us so we can schedule a time to help you.

For those of you who are still uncertain whether to upgrade or not, you will be amazed at the new features and the incredible ease of use. 5D Suite is such an amazing collection of software programs. Sometimes even we wonder how our developers can even imagine, much less create, such incredible capabilities.
