Great Savings!!

CLASS PASSES/CLUB CARDS

We are now pleased to offer you the option of taking any class using a Class Pass or Club Card. The passes contain six class possibilities and can be used to pay for any class or club. You simply purchase the card and we punch out the required number of classes required for your class. The cards offer a significant reduction in price from paying for classes individually. When your card is totally punched, you simply purchase another one.

Embroidery Club - Fantasy Birds

On Oct. 16th we will start **Anita Goodesign's Fantasy Birds quilt**. This wonderful project will become one of your favorites and we will learn lots of new things as we create it.

Creative Vision Club

Creative Vision Club on Oct. 16th will focus on more features available to you in this incredible machine. It is almost hard to imagine the creative possibilities the CV owner has using just the machine with no software. Each session explores a different feature of the machine to encourage you to "play."

Panel Play Jacket October 23rd, 10am-2pm

If you did not see Panel Play Jacket at OSQE, stop by the store and take a look. This great garment will be a conversation starter wherever you choose to wear it and a special garment for those holiday parties. We do need you to sign up early so that we can prepare your kits with fabrics in colors that suit your tastes.

The new Creative 5D™ Software class starts Saturday, November 13th from 2pm-5pm!

Kimono Wall Hanging Thursday, Oct 28th, 5:30pm-8:30pm

Our Kimono Wall Hanging would make a wonderful gift if you can part with it. We are going to use genuine kimono fabrics to create it. It is really easy even though it looks difficult. No one will know but you! The other option would be to make pillows from the blocks. No two kits will contain all the same fabrics. Come into the store to take a look at our finished one.

DID YOU KNOW?

The thread you use can make a tremendous difference in the way your machine sews and the look of your finished project. Always buy great thread made with long staple fibers in either all polyester or all cotton. Cheap thread can, over time, create timing problems in your machine and unnecessary repair expense. There are several good thread brands available locally. Sun Sew Vac carries Mettler (cotton or polyester) sewing threads and Robison Anton embroidery threads which are the best available.
